

ABSTRACT OF THE DISCLOSURE

A transportable flamer, mounted on a tractor or similar, may be used to sterilize poultry litter, soil, concrete, etc. The flamer disclosed comprises a hood to contain the heat, an external frame, and burners. A fuel tank may be carried on the flamer or on a tractor or trailer in front of, or behind the flamer. An additional embodiment provides for mounting the flamer on wheels, permitting the unit to be towed by a truck, four-wheeler, tractor, etc. The burners are adjustable as to angle, and fueling rate.
